HISD SCHOOL DISTRICT

TRANSPORTATION DEPARTMENT

The HISD School District Transportation Department plays an important role in keeping our school district running smoothly, safely, and efficiently. Our transportation team is responsible for providing reliable transportation services for students, staff, and other members of our school community. From the beginning of the school day until dismissal, our bus drivers and transportation staff work together to make sure students arrive at school on time and return home safely. Within our HISD Roblox School District, the Transportation Department is designed to provide a realistic school transportation experience, including school bus routes, bus stops, school arrival and dismissal procedures, transportation staff, dispatch operations, and driver responsibilities. Our goal is to create an organized and realistic transportation system that represents how a real school district operates. All transportation employees are expected to follow district policies, maintain professionalism, communicate with dispatch, and treat students and fellow staff members with respect. Whether you are a school bus driver, transportation supervisor, dispatcher, or transportation administrator, every position plays an important part in keeping our district moving. We take pride in building a safe, organized, and welcoming environment for everyone in HISD. Together, we are committed to making transportation one of the most important and dependable departments in our school district.

HISD Transportation – Moving Our Students, Moving Our Future!
